 **John Crain** 
Have been trying out @Tandem_HQ for video and screen share. Love not having to keep track of zoom links :D

 **Avery Carter**  Product @ Placenote
Our team has been using it for about 2 months or so, and it has been a really nice way to start conversations.

Working remote, you find that there is this weird social awkwardness over starting calls or wanting a super quick call with another teammate. Tandem has the best solution for that problem from what I've seen thus far.

The team works hard and cares a lot about customer feedback which is awesome. Keep it up!

 **javascript joe** 
Huge fan of Tandem so far! I think this is going to take distributed teams to the next level.

 **JASON**  @jscottpearson
Excited for the @Tandem_HQ crew! They came by @figmadesign a while back to show us what they were cooking up. Rad that it was inspired by, and designed using, Figma. As the manager of a semi-remote team, anything to make remote work more enjoyable and productive is 

 **Kevin Hale** 
I honestly feel like this is going to be a game-changer for working remotely. Excited to see the future of Tandem!

 **Nikema Prophet** 
Tried out @Tandem_HQ today with @enigmaticsoulrg and loved it. Much better than a running zoom call for virtual coworking.

From our clients

 **Davide Dattoli**
Co-founder & CEO, Talent Garden

«Pros with fresh ideas. This studio is able to make digital products around people needs.»

 **Krister Bagkop**
Mobility Platforms Product Owner, Europcar Innovation Lab

«What makes this team great is how they're helping us in decision-making. We stopped talking about things over and over and just focused on building the right product.»

 **Vittorio Banfi**
Co-founder & CEO, Botsociety

«Moze is a world-class team working at the intersection of technology, design and business. If you are expert in those areas, and obsessed with design, you can create beautiful things that just work. That's what they do.»

I installed Fathom on my personal website yesterday, and wow, what a breath of fresh air. I love how simple it is, and for something like a blog it really gives you all the traffic metrics you could need.

Joel Gascoigne, CEO of Buffer

I switched to Fathom because it's an ethical analytics tool that I can trust with my data. The interface is beautifully simple to use: it shows me everything I want to know about my site's performance, and nothing I don't!

Charli Marie, creative director of ConvertKit

Fathom is the perfect privacy-based Analytics solution for us. We can provide the metrics that our clients need and reassure them that their customers' data isn't being shared with faceless companies.

Darren Pinder, owner of Vatu

Developers are pretty tech-savvy people, and these days very privacy-cautious—they understand how scripts follow you across the internet, that's why we choose Fathom, because they don't do that.

They were fast, efficient, friendly, and extremely helpful (I needed to move a piece of furniture to make some room for the item they picked up). They were in and out in 10 minutes! Thanks a ton!"
